“Teaching is the profession that makes all other professions possible.” - Anonymous

Teaching is the indispensable occupation. It is the profession that makes all other professions possible. Therefore, without skilled, caring, and dedicated teachers, neither improved curricula and assessments, nor safe schools will ensure that our children are prepared for the challenges and opportunities they will face in the future.

The best teachers first learn how to teach, and then incorporate their own personal talents and skills into their practice. Many accomplished and dedicated teachers throughout Florida and the U.S. earned degrees from Union Institute & University.
